Professional Summary

IT student focused on data analysis and machine learning, with experience using Python for data analysis and visualization through Pandas, NumPy, Matplotlib, and Seaborn. Familiar with building basic machine learning models and interpreting results. Interested in applying technical skills to practical projects and gaining hands-on experience.

Technical Skills

Programming: Python(NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn)

Databases: MySQL, PostgreSQL

Version Control: Git

Tools: GitHub, Tableau

Web: HTML, CSS, JS (Basic)

Projects

1. Walmart Sales Forecasting using Time Series Analysis

GitHub: [Time Series Walmart Sales Forecasting](#)

Live Demo: timeseries-walmarts.streamlit.app

- o Developed a Walmart sales forecasting application using Prophet to predict future weekly sales from historical retail data.
- o Performed data cleaning, preprocessing, and feature engineering using Python, Pandas, and NumPy for time series forecasting.
- o Built an interactive Streamlit dashboard with Plotly visualizations, store-level forecasting, and downloadable forecast reports.

2. Customer Churn Prediction System

GitHub: [Customer Churn Prediction System](#)

Live Demo: customer-churn-prediction.streamlit.app

- o Built a churn prediction model using Random Forest Classification with data preprocessing and feature engineering via Pandas, NumPy, and scikit-learn.
- o Evaluated model performance using accuracy, F1-score, and ROC-AUC, visualizing churn patterns with Matplotlib and Seaborn.
- o Deployed an interactive Streamlit web app enabling users to input customer data and receive real-time churn predictions.

3. HR Analytics Dashboard

Tableau Link : [HR Analytics Dashboard](#)

- o Queried HR data of 961 employees using PostgreSQL to extract key metrics such as attrition rate, active headcount, and average age.
- o Wrote SQL queries to segment attrition by department, gender, and education field, identifying Sales as the highest attrition department at 56.12%.
- o Aggregated workforce data by age group and job role to analyze employee distribution and job satisfaction ratings across departments.

Education

Bachelor of Science in Computer Science and Information Technology (BSc. CSIT)

Padma Kanya Multiple Campus, Tribhuvan University - 2022–Present

Intermediate Level (NEB) - GPA: 3.80

MOLISS College - 2020–2022

Training and Certifications

- Data Science with Python Course - Mindrisers Institute of Technology - Jan, 2026
 - OCI (2025) Certified AI Foundations Associate - Oracle University - Oct, 2025
 - Professional Web Design Training - Broadway Infosys - Aug, 2024
-

Soft Skills

- o Teamwork
 - o Problem Solving
 - o Time Management
 - o Quick Learner
 - o Attention to Detail
-
